

# Human Efficiency

## Transform Health & Safety, from a Cost Center to a Profit Center

The cost of maintaining a workforce is rising - with no end in sight! The time and money spent on Wellness, Health and Safety programs provide a small return on investment, if any. Organizations continue to try different approaches, however many of these solutions apply to only a small number of employees. Attend this discussion and find out how a new approach will make a profound difference for your organization.

## Harness the POWER of Human Efficiency

Dr. Sheila O'Halloran and Mark Worthen from Accurate Ergonomics will present a multiple year study and a comparison of several current H&S trends. Experts will discuss how to recognize and reduce risk, as well as innovative new tools for success. Learn how a Culture of Prevention will help your organization achieve a significant return on investment and improve the health and human efficiency of your workforce, for years to come. **Attendees will also have an opportunity to see some of the latest innovations in ergonomic office equipment from Office Relief.**

May 16<sup>th</sup> 2017 @ 11:45am-1:15pm | The Elk's Lodge Charity Ballroom  
645 Charity Way, Modesto CA 95356
